February 26, 1996

Welcome to The Class of 2000:

I take great pleasure in informing you of your appointment to the first-year medical class at the Tulane University School of Medicine, to enter in August of 1996. I sincerely hope that you will accept our invitation to take your medical training at Tulane and look forward to having you join us.

In order to reserve your place in the class, we must receive, within the next two weeks, written notification of your intent to accept our invitation. At anytime between now and May 15, 1996, we must receive a check, payable to the Tulane Educational Fund, in the amount of \$100; this deposit will be credited against your first tuition billing. Please understand this deposit is non-refundable and should indicate your final decision to attend Tulane University School of Medicine. We ask that should you decide not to attend Tulane, you inform us in writing so that we can maintain an accurate accounting of our class.

I am sure you will understand that your appointment is contingent upon successful completion of the academic program in which you are currently enrolled, and maintenance of the level of academic performance that was part of the basis for your acceptance. A final transcript of your grades must be forwarded to this office as soon as your school year ends.

You will be receiving additional information concerning summer programs, combined-degree programs, and other topics of interest as the year progresses. I and others at the medical school will try to keep you well informed of all important or interesting topics.

On behalf of the students, faculty, and administration at Tulane, I bid you a most enthusiastic welcome. If I can be of service to you in any way, please feel free to call upon me.

Sincerely yours,

Joseph C. Pisano, Ph.D.
Associate Dean

A little bit of history...

The Tulane University School of Medicine was established as the Medical College of Louisiana in September, 1834. It became the first medical school in the Deep South and the fifteenth in the country. There were only eleven students in the first class; tuition, room, and board came to less than \$400 per year. Professors received no salary and were compensated instead by selling tickets for their lectures to the medical students.

Medical school in those days was very different from what we know today. Only eight months of lectures were required to receive an M.D. The school year was four months. The same seven courses were repeated over in the second year. The curriculum consisted of courses in Anatomy and Physiology, Chemistry, Materia Medica, Principles and Practice of Medicine, Surgery, and Obstetrics and the Diseases of Women and Children. Instruction was wholly didactic, with lectures given to the entire student body assembled in a lecture hall. Indeed, the unmotivated student could graduate without ever having attended a delivery, observed an operation, or examined a patient!

The Civil War brought to a halt all formal medical training in 1862. During this time period the Medical College was fortunate to find financial security. Paul Tulane, a wealthy New Orleans merchant, bequeathed \$1,250,000 to provide for a new University. In 1884, the various departments of the Medical College were united under the jurisdiction of a new institution, Tulane University.

The twentieth century had much in store for the young institution. In 1910, Abraham Flexner published his report ranking and classifying medical schools of the time, calling for more rigorous standards in medical education. Tulane ranked among the top three schools in the South. Prominent faculty at that time included Dr. Rudolph Matas, the father of vascular surgery, and Dr. Isadore Dyer, a well-noted dermatologist who was instrumental in the development of the leprosarium in Carville, Louisiana.

Welcome to
CILARITY HOSPITAL
The Medical Center
of Louisiana
A Level One Trauma Center

Since its founding 166 years ago, the Tulane University School of Medicine has undergone many changes. The Tulane Medical Center was organized in 1969 to broaden Tulane's commitment to medical education, research, and patient care. The Tulane Medical Center Hospital and Clinic was dedicated in 1976 and was the first such university hospital established in Louisiana. This 300 bed hospital, a part of which was sold in recent years to Columbia HCA, enabled Tulane to consolidate a wide range of services in a tertiary care environment. The hospital is a major referral center for the region; one of the most recent changes is the addition of the Tulane Cancer Center.

Charity Hospital remains a major site of clinical teaching, however, in recent years the Veterans Administration Hospital, as well as University Hospital have been added as teaching sites for students. Students also continue to train at the Huey P. Long Hospital in Pineville, Louisiana.

While Tulane originally catered to students from the South, today it attracts students from all over the country. The Class of 2000 will participate in residency training programs throughout the fifty states.

Class of 2000 Sponsors

Marc J. Kahn, MD, FACP

Marc J. Kahn, MD is currently an Associate Professor of Medicine at Tulane School of Medicine. He joined the Tulane faculty in 1994, upon completion of his fellowship in Hematology/Oncology at the Hospital of the University of Pennsylvania.

Originally from Philadelphia, Dr. Kahn completed both his undergraduate and medical school at the University of Pennsylvania. He distinguished himself by earning numerous awards and honors, including membership in Alpha Epsilon Delta Premedical Honor Society and Alpha Omega Alpha Medical Honor Society.

Sherri A. Longo, MD

Sherri A. Longo, MD is an Assistant Professor of Obstetrics and Gynecology at Tulane School of Medicine. She joined the Tulane faculty in 1996, after completing her fellowship in Maternal-Fetal Medicine at the University of California at Irvine.

Dr. Longo is a graduate of both Tulane undergraduate and Medical School. She completed her residency training at the Alton Oschner Medical Foundation in New Orleans, LA.

Dr. Longo is very involved in research in her area of expertise, maternal-fetal medicine. She has numerous publications and presentations to her credit.

Thomas B. Montgomery, MD

Thomas B. Montgomery, MD is an Associate Professor of Medicine at Tulane School of Medicine. He also currently serves as the Interim Co-Chief of the Division of General Medicine. He joined the Tulane faculty in 1995.

Dr. Montgomery completed his undergraduate studies at Washington & Lee University and graduated from the School of Medicine at the University of South Alabama. He completed a residency in Internal Medicine at the University of Kentucky.

Dr. Montgomery has devoted a great deal of his time to resident and medical student education, serving as a resident and student

Thank You

to all the Tulane Faculty who have served as advisors, mentors, teachers, and friends throughout our preclinical and clinical years at Tulane.

Class of 2000 Sponsors

Dr. Kahn has also been involved in research. While much of his earlier research focused on hematological questions, his current research involves improving teaching methods in pathophysiology and clinical skills for medical students.

Dr. Kahn has distinguished himself in the eyes of students during his tenure at Tulane. He is involved in teaching medical students at all levels during both the preclinical and clinical years. He has been presented with numerous teaching awards, including the Owl Club Outstanding Clinical Faculty Teacher from the student body and the C. Thorpe Ray Award for Outstanding Faculty Teacher by the house staff.

We, the Class of 2000, choose to honor him once again by selecting him as one of our class sponsors. Thank you for all your support and encouragement, Dr. Kahn.

Dr. Longo is a great supporter of students and undergraduate medical education. She involves students in her research and has served as mentor to many students interested in pursuing obstetrics/gynecology as a career. She serves on numerous committees throughout the medical school, including several devoted to improving medical education.

Dr. Longo's excellence in teaching has been recognized since she came to Tulane. She has several Owl Club Honor Roll awards to her credit.

The Class of 2000 would like to honor Dr. Longo's commitment to medical education by selecting her as one of our class sponsors. Thank you for all your support and encouragement, Dr. Longo.

advisor from the very beginning of his career. His teaching has been consistently recognized as excellent by both students and residents. He has been the recipient of several Owl Club Teaching Awards since coming to Tulane.

Dr. Montgomery teaches medical students from the preclinical years through clerkships. He is well-regarded by students at all levels, but especially for his teaching on the medicine wards. He has served as advisor and mentor to many students seeking to pursue a career in internal medicine.

The Class of 2000 would like to honor Dr. Montgomery for his commitment to excellence in medical education by selecting him as one of our class sponsors. Thank you, Dr. Montgomery, for your support and encouragement.

We couldn't have done it without you!

"Heaven wheels above you
 Displaying to you her eternal glories
 And still your eyes are on the ground"
 - Dante

Do I still look this dazed?

Look at me! I'm dancing!

Just a thought: Quantum mechanics when taken to its logical extreme mandates that I question the existence of anyone but myself.

I would consider my life complete if:

1. I could play Beethoven's Op. 111 Piano Sonata.
2. I could answer the question "Why?"
3. I could solve the "Theory of everything"
4. I could see the Universe - from the outside

From opposite sides of the earth...

Things that fascinate me:

1. The electron - It routinely violates conservation of angular momentum. Unless it is skating on the undulating surface of space-time thus revealing the truth of space-time's infinitesimal discontinuities. An apparently obvious example of the mathematically difficult and physically improbable notion of a point singularity.
2. Space-Time at the Planck scale. A dynamic quantum foam with locally consistent physics but dominated by gravity in a global sense.
3. Genius.
4. Music

For those who said I never studied...

$$S = \int d^4x \left(-\frac{1}{4} F_{\mu\nu}^a F^{\mu\nu a} + \sum_{f=1}^n \bar{\psi}_f(x) (i\partial - gA(x) - m_f) \psi_f(x) \right)$$

I love just *looking at* equations. Not clumsy ones filled with empirical parameters but elegant ones that hold infinite truths and promise. Above is the action for a lepton in the GWS electroweak unification.

Med students make trek from Tulane

By WENDY ISOM
Times-Journal Writer

During the Dr. Martin Luther King Jr. Holiday weekend, nine Tulane University medical students examined the heart of the Civil Rights Movement in Selma.

Walking along the Edmund Pettus Bridge, touring the National Voting Rights Museum, talking with civil rights pioneers.

The four-day trip brought a multicultural group, which ranged in age from 22 to 30, closer to a history that most had only read about.

And one hadn't even heard about it. "I had a broad idea of civil rights," but Gunter Hoffman, 28, of Germany, said "I hadn't heard about Selma at all."

Hoffman, accompanied by his girlfriend Kristin Moeller, 28, a first-year medical student from Long Island, N.Y., who had only read about the Civil Rights Movement in high school history classes.

Sunday was a day that history literally came alive for many in the group. Saturday night the group watched the highly-acclaimed film documentary "Eyes on the Prize" in Montgomery. A day later, they saw the landmarks up close.

The Dallas County Courthouse steps. The old City Hall. First Baptist Church. Brown Chapel. The Edmund Pettus Bridge.

"This is the route that the marchers would take," said Sam

coordinator said in the unknown history of whom had just learned of the concept that their right to vote is considered by some temporary.

After the tour the students who would visit Selma were assigned a what they learned.

Before, "I never understood how Selma fit all pieces. A small town, convenient of the trip. They met each other in school in New Orleans last August in their gross anatomy laboratory.

Daryl Crenshaw is the son of Mrs. Crenshaw so he knew the civil rights struggle first-hand.

Hudson had visited Montgomery before but after talking to Crenshaw about the history in Selma, Hudson was ready to march across the bridge.

They both decided to open the avoidance of a road trip to their anatomy class. They got a great response. When Crenshaw called his mother and said he was bringing home "pieces of his journey," his mother-in-law said "I'm glad. The course was arranged for them to see the city and experience a dinner in a place at the Redeemed Presbyterian Church, where they fellowshiped Sunday morning before they started the Selma march.

Heading back to New Orleans on the eve of Dr. King's Holiday, Crenshaw said the united effort of his group proves that King's dream is still alive.

"It's not about color. It's all about God." When that is realized, Crenshaw said, "we can gain a change for the better." Hudson and Crenshaw plan to extend the connection to their peers, learn from

The Lord is my shepherd; I shall not want.

Psalm 23:1

The Lord is my light and my salvation; whom shall I fear? The Lord is the strength of my life; of whom shall I be afraid?

Psalm 27:1

Wait on the Lord: be of good courage, and he shall strengthen thine heart: wait, I say, on the Lord.

Psalm 27:14

THE OATH

I swear by Apollo, Esculapius, Hygieia, and
 Artemis, and by God and by whatever I hold most sacred, that
 according to my ability and judgement, I will keep this Oath and
 its stipulations—I will look upon those who shall have taught me
 this Art even as one of my parents. I will share my substance
 with them, and I will supply their necessities if they be in need.
 I will regard their offspring in the same footing as my own
 brethren, and I will teach them this Art if they desire to
 learn it, without fee or covenant. I will impart a knowledge of
 the Art by precept, by lecture, and by every mode of teaching not
 only to my own children, but to the children of those who have
 taught me, and to all who desire to learn the Art, in conformity
 with the Law of Medicine, our
 adoption shall be for the benefit of my patients according to my
 ability and judgment and I will abstain from whatever is deleterious
 and mischievous. I will seek to inform my patients fully
 about their illness and prognosis, and will always remember that
 the final decision regarding their own life rests with the patient.
 I will regard my patients always as fellow human beings and will
 do everything possible to preserve their dignity. With purity and
 holiness I will pass my life and practice my Art. Whatever
 things I see or hear concerning the life of the people in my
 attendance, on the sick or even apart therefrom, which ought not
 to be noised abroad, I will keep silence thereon, counting such
 things to be sacred secrets. While I continue to keep this Oath
 unviolated, may it be granted to me to enjoy life and the
 practice of the Art, respected by all, in all times. But should I
 trespass and violate this Oath, may the reverse be my lot.

Krista Poe Erbele
Lancaster, PA
Family Practice

The prayers and love of my parents, grandparents, family and friends have strengthened and upheld me throughout my life. I thank God for these wonderful people and for the faithfulness of God who hears and answers prayers.

"No, we're just friends"

I thank God for Phillip, my friend, study buddy, true partner and unexpected love.

Married after third year!

"Therefore, since we are surrounded by such a great cloud of witnesses, let us throw off everything that hinders and the sin that so easily entangles, and let us run with perseverance the race marked out for us."
Hebrews 12:1

Mom and Dad,
Thank you for your Christian example and servants' lifestyle that has influenced my life. Thank you also for loving me, believing in me, and most importantly for praying for me.

For you Krista, I must thank God. You have been a wonderful support for me through medical school, a great study partner, best friend, and love in my life. I look forward to the future God has planned for us.

ENGAGED!

Heavenly Father, give me a thankful heart for I am so blessed. I thank you for sending your Son, for Krista, Savannah-banana, my parents, sisters, and friends. May my eyes be open to seeing your blessings, my mouth open to proclaim your goodness, and my feet ready to follow after your calling.

"To him who is able to keep you from falling and to present you before his glorious presence without fault and with great joy--to the only God our Savior be glory, majesty, power and authority, through Jesus Christ our Lord, before all ages, now and forever! Amen."

T-Wave 2000 Staff

Kristin Moeller

Kristi Cutler

Kate Kerry Fournier

Marielle Lazard

Rama Rao

Claire Cali Neumann

Josh Bloom

Dear Josh,
From the Staff of Aesculapias to the Silver Bear -- With beauty all around you, there may you walk.

Congratulations! ¡Felicidades!
Mazel-Tov! Alles Gute!

Love,
Lonna, Mike, Jesse, Naya, Drew, Ruth,
Orville, Lee y toda la familia!

Katrina Bradley

Katrina,

We are so very proud of you. You're a caring, sensitive, fun-loving person. The compassion you show towards others will make you an outstanding doctor.

Mom and Dad

Cortney Brown

Cortney, you have achieved another milestone in your life. We have watched you grow, not just physically and intellectually, but spiritually as well. Our prayer for you is that God will continue to guide you and be the unseen master physician by your side as you begin a life of service to others. We love you.

Congratulations, Doc!

Bren Boston

Dearest Bren,
As your horizon broadens once again, some things remain constant: my love and respect for you. Although your outer beauty and long succession of accomplishments would please any parent, I am still most proud of the person you are inside.

Love, Mom

Bren Boston

Dear Bren,

I cannot adequately express how much I treasure the joy and love you have given me during your 25 years. Congratulations on another achievement. May your life be filled with joy and love.

Dad

Mundeep Singh Chawla

It's been wonderful sharing your dreams and watching you grow. Feeling such pride in the accomplishments you've made and the wonderful man you've become.

Love,
Mom and Dad

Jason R. Citron

Dear Jason,

We're incredibly proud of you and your accomplishment. Your commitment to reaching this goal is truly awesome. You're terrific and we love you!

Mom, Judy, Sandy and Dad

Kennedy Michael Cosgrove

Kennedy,
You light up our lives. You have, since you were a baby, had an easy laugh and smile for everyone. Your gentle heart and kind, generous spirit are a gift to your colleagues and patients. Insight and intellect are special blessings God gave you, but mostly we love your sweet heart,
Your family

Daryl O. Crenshaw (DOC)

Daryl,
We recall how you used to watch TV, but everytime the commercial Scrubbing Bubbles came on you would take off running (smile). We hope that when you are "scrubbing down" to prepare for surgery, you don't see anything resembling those "bubbles;" your patient will be in trouble (smile). You have worked very hard, made a grave sacrifice, and deserve to be called D.O.C. We are proud of you and we love you.
Dad, Mom and Shayla

Frank Cruz

Frank,
It's been a long journey, but the lessons learned make it all worthwhile. Be proud of all you've accomplished...we are. Be generous and compassionate - traits you'll need to be a good doctor. And remember, the most important ingredients for happiness are God and family.
Love,
Mom and Dad

Jerry Lee Cunningham

Congratulations, my son, for fulfilling your dream. I am happy and very proud of your achievements. I know your dad is, too. I am sure you will be one of the most caring, best doctors there is. God be always with you.
Love,
Mom

Jason Darrell Dausman

A new century,
A new beginning,
A wonderful son!

Our love to you, Jason,
Mom and Dad

Eric Diner

Congratulations!
We're so excited for you.
Good luck.

Love,
Mother and Dad

Lorena Dumas

L - Lovely
O - Objective
R - Resilient
E - Endearing
N - Noble
A - Ambitious

Benie,
You have obtained a
new goal; to say that I
am proud of you is an
understatement. I've
watched you study and
apply the 7 P's to reach
your achievement.
However, I do not want
you to ever forget that
the Wise Men sought
Jesus.
Dad

Joshua B. Ewen

Dr. Josh,

Finally, a doctor in the family! Well
done. You are the best.
We are so proud of you and we love
you.

Dad, Mom and Sara

Todd Donovan Eisenberg

You have always had a good heart.
Now your patients will have the benefit
of your caring and skills.
Congratulations, Dr. Eisenberg!

Todd D. Eisenberg

Todd,
Through accepting challenges (eating a
jar of peanut butter sandwich), to set-
ting lofty goals (learning photography in
one night or not missing a shot against
P-Hill), or dealing with adversity (be-
coming Super Bullet), you never cease
to amaze. Congratulations.
With love, Dad

Kate Flanigan

“Pursue some path...in which you can walk with love and reverence.”

Henry David Thoreau

Kate,
We are proud of you and the path you have chosen. Congratulations!
Love ya,
Mom, Dad, Lonn, Monica, Regan, Dan, Mike, Clancy, and Flanigans coast to coast, and Uncle Ted.

Heidi Lee Frierson

Congratulations, Sugar Bear.
Love, Dad, Mommy, & Gran-gran

Congratulations to someone who always was able to make me feel better.
Love, Heather

To the “little” sister I always looked up to:
I always knew you could do anything you set your mind to and you did it, Doctor!
Congratulations and love, Hillary

Eric James Frischhertz

Congratulations!
Words cannot express how proud we are of you and your success. The medical community is gaining a fine young doctor with a brilliant mind, a witty sense of humor, and a kind, compassionate heart. Lucky them!
Love,
Mom and Dad

Jon Ryan Glass

We are so proud of you. With your warm heart and compassion you will be an asset to the medical profession. We are thrilled to share in the happiness and celebration of the realization of your lifelong dream.

Love,
Mom, Dad, Jeff and Chelsea

Lisa Grant

To the newest caring, giving, healing doctor in our family,
We are so proud and grateful to have you in our lives, Lisa.
Congratulations and love to you,
Dad, Mom and Ross

Judith Hanna

Judy Blue Eyes, aka, The Girl with a Thousand Nicknames. Let's name a few: Booda, Hud, Yudy, Judeeb. Things we love about you: musical taste, linguini locks, spider bite scar, I love the disco a ha, running quail, heel dragger, zest for brightly colored clothing. Love and congratulations!
Dad and the sibs.

Michelle Lynn Huckaby

Congratulations on achieving a lifelong ambition! You have been a wonderful daughter all your life and your family is very proud.

John Stewart Humphrey

There have been times when you have asked, "Why am I doing this?" Through the good times and the bad, we have watched with pride as you stayed true to your goal. Now your dream is coming true, and we could not be prouder of you.
Mom, Dad and Sharon

Nita Satish Karnik

To dearest Nita and Tulane 2000,
Congratulations and Best Wishes.
The Karnik Family

Deborah Lynn Katz

Our love and admiration are yours on this day and always. Congratulations as you graduate from medical school.

Love,
Larry, Mother, Dad and Rick

Ilan Kedan

Dear Ilan,
From the moment of your induction to medical school to your graduation, we learned what it takes to become a doctor. We are so proud to finally have a doctor in the family, and such a good one!!
Love, Elite, Golan, Mom and Dad

Windsong Hollis Lanford

Dr. Windsong Hollis Lanford,
Love and Congratulations to our hero!
The philosopher, friend, confidante -- for her brilliance, courage, persistence, kindness and guts!

"Amor vincit omnia"

Brent Lanford, Emily Caplis Slocum, Sheila and John Hollis, Gayle and Joe Lanford, and those who have gone before

Marielle Lazard

Elle rêvait depuis longtemps d'acquérir coûte que coûte une brillante profession. Nous concluons donc ainsi: elle a visé son but, Dieu l'a aidé à l'atteindre. Tous nos remerciements vont à Dieu et aussi à tous ceux qui l'ont supporté d'une façon ou d'autre.

Patricia Anne Magnani

It's been a long road to Tipperary...
but oh, how proud we are!

Kelly L. McCann

Our love. Strawberry girl. Jackson Heights. "Many moons." Captain. Our daughter. Lake George. The blue bomb. A-Z. Our sister. Tanglewood. "The Tao of Pooh." Our love always. Fordham. Brown. Carnegie Hall. ADPHI. "The telephone." Our friend. "Why the fish?" Rockport. "Book of Women." Tulane. N.O. Ghana. Our doctor. Our love forever.

Jessica L. McMahon

Dearest Jessica,
You are so special to us, and have always filled us with pride. Whether it be daughter, student, swimmer, soldier or doctor, you have been outstanding and successful. But most of all, we love you best for your warmth, caring, and ready smile.
"You are so beautiful to me!"
Love, Mom and Dad

Kristin A. Moeller

Our entire family is bursting with pride as we see Kristin accomplish her life-long dream to become a doctor. Congratulations and God bless you, Kristin. May you be a great success wherever you go as you leave Tulane.

Brett Negin

Congratulations, Brett!
We've imagined for a long time your name with this degree so we're raising our glasses high to you, Brett, the new M.D.

Love,
Mom and Dad
Angelique, Geoff, Simon and Elliot
Carrie, Ron, Hercules, and Zach

Thomas Edward Novak

To laugh often and much
To win the respect of intelligent people
and the affection of children
To earn appreciation of honest critics
and endure the betrayal of false friends...
To know even one life has breathed easier
because you lived
This is to have succeeded
Ralph Waldo Emerson

Nikole Neidlinger

Since a little girl, you have always chosen a journey for yourself that included helping and sharing with a tender heart. This sounds like wonderful ingredients for a great doctor. We love you and are so proud of you. Dad, Beth and family

Nikole Neidlinger

Congratulations,
Amazing Doc!
We are too proud! Life gave you lemons and you made lemonade. You make our world better with your nondiscriminating love. May God give you wisdom in your future decisions and strength to stand firm. Our love,
Mom, Joe Dad, & Sunny

"Time goes on, people touch you and then they're gone...but you and I will never really end."

St. Elmo's Fire

Chelsey Overstreet

Chelsey: We love you.
Mom and Dad

Elise Perer

Elise,
You became as beautiful as the song,
Für Elise, you were named for. You are
a great and wonderful daughter and
sister and that would be true even if
you hadn't attained your M.D. degree.

Mom, Dad, Charlie, & Grandpa

Christopher Pickett

Chris

Brings tremendous joy and
satisfaction to his mother and I. It
may have been her battle and
loss to breast cancer at the
terribly young age of 36 that has
motivated and inspired Chris to
pursue medicine!

Joshua Patt

You have learned to appreci-
ate and enjoy the journey.
Now's the time to celebrate the
destination! Your family and
friends toast your success and
wish for you a future filled with
purpose, satisfaction and
occasional birdie!
We love you, Joshua
Mom, Dad and Ands

Joseph Rheim

Joe,
We are very happy for you and very
proud. May your medical career be as
enjoyable and rewarding as your four
years at Tulane have been.

Love,
Mom, Dad, & Nana

Kimsey H. Rodriguez

There is a time to study and a
time to rest.

A time to celebrate,
and say how very proud
we are of you.

Congratulations, Kimsey!

We love you.

Mom, Dad,
Christy, Denning

Alecia M. Rideau

Alecia,

God has given us one
daughter to love. You are
very special to all of your
family and we are so
proud of you.

We love you,

Mom, Dad,
Al, Kyle & Jacob

Jenny Schreck

A child's eyes hold the promise of
the future.

Every step sustained by heart
and soul.

Each misstep is a lesson learned.

Each hill a treasured goal.

Perhaps unseen but always
known;

A father's hand forever there to
hold.

Adam Kalen Saperstein

We are very proud of all you have ac-
complished. Your care, concern and
thoughtfulness of others always shines
through.

We love you,
Mom & Dad

Nicole Ann Shilkofski

Nicole,

Our hearts and special hearts in
heaven are filled with pride and joy. In
utero you "advanced confidently in the
direction of your dreams and endeav-
ored to live the life which you imagined."
May your chosen path bring you much
love and happiness working with the
children of the world.

Love,
Mom, Dad & Joseph

Congratulations, Brian!

Your wonderful sense of humor, desire, and perseverance have made us so proud. You are very special and we love you so much.

Mom and Dad

Dearest Brian,

I am so proud of you, I am just bursting with pride.

You, the love of my life, have placed all the best within your reach and I am sure each new success will be even better than the last one.

I love you,
Helene

Brian,
You will be a great physician because...

“The Shadow Knows”

Brian,
Please accept our heartiest congratulations on your attainment of your medical school degree. Your dedication to the healing arts, like your marriage to our daughter, Helene, fills us with pride, joy, and happiness. Truly, you honor not only yourself and your family, but ours as well.

With love,
The Levines

Brian!

CONGRATULATIONS!

We are so proud of your hard work and dedication. You will be a GREAT doctor.

Lots of love,
Aunt Pam, Uncle Brian & Greg (G-Man)

Autumn Ronai Shurin

You were a darling kid
You are a terrific student
You will be a great Doctor
And best of all you are a kind and loving
person.
We are so proud of you!

Jared Mom Dad Honey Ronnie Florence Nate

Grant Stanley

Congratulations, Grant:

To a gentleman and a scholar,
With love from your family.
(Mean it!)

David Victor Smullen

Dave,
May I let go yet? It's been a long road since I put you on the kindergarten bus, then cried all the way to the house. Now, bursting with pride, the tears are of joy for your great achievement. We love you. Philippians 4:13.
Mom and Dad

Noaman W. Siddiqi

Congratulations and Best Wishes
To Nomi & The Class of 2000

As you step into the future let Happiness and Compassionate
Caring walk with you
May Music, Laughter and Sunshine add to the joy of living
Thanks for a wonderful ride

With pride and love
Mom, Dad, Sami, & Sehar

Donald Chad Simmons

Chad,
The love and pride we have always felt for you as a son is immeasurable.
The pride, joy, and respect we feel for you and your accomplishments as a physician are greater than we can adequately express. Congratulations.
Mom & Dad

William R. Sterba, II

We can hardly believe it
Time so quick has flown
For our blond little boy
Be now out on his own?
The sounds of his little feet
We will not hear anymore
And the Hotwheels and Legos
Forever tuck'd in a draw'r.
But that's as it should be,
We grow up and we age
'N' every few years
We must turn a new page
So from here you'll begin
A new chapter appealing
Usin' the science 'n' the art
Of medicine now for healing.
What you have achieved
We can't be any more proud
For it's all we can do
Not to brag out real loud
So we'll just modestly do
What we have always done,
We'll nod and we'll smile,
Yes, he is,... Bill is our son!

David T. Stewart

Congratulations on attaining this goal! You are a wonderful person and we are very proud of you.
Love,
Abby, Mom & Dad

Spencer Stoetzel

Spencer's great-grandmother, Rose Spencer Stoetzel, sent us this quotation, which she thought described his energetic behavior at the age of two:
"He was one of the vital quicksilver children, borne beneath a star."
We still think this is true!
Love,
Mom and Dad

Adam Matthew Starr

Dearest Adam,
You have always been our pride and joy.
Love you forever,
Mom and Dad

Kevin Timmel

It's wonderful to see you fulfill your dream of becoming a doctor...a dream you have had since the eighth grade. God has blessed you abundantly and honored your hard work, diligence and perseverance. We are so proud of you. We love you very much.
Congratulations.
Love, Mom, Dad and Family

Sridhar Oentrapragada

Congratulations.
We are proud of your
achievement. We wish you
many more successes in life.
Dad, Mom, Madhuri and Ram

Lucia E. Oigna

Congratulations!
We are very proud of you and have great
admiration for your hard work and determination.
You will be a great physician.
Ad maiora, Dottoressa
Love,
Mom & Dad

Congratulations on a job well done.
Franco

Molly Walsh

We love you bigger than the world.
You're the greatest!

Nathaniel Scott "Teddy" Winstead

You came through med school
squeaky clean!
Congratulations!

Love,
Mom, Dad, Laura & Amanda

James B. (Jamie) Witkowski, III

To our son, Jamie,

with prideful congratulations for seizing the tail of
a dream, clinging with tenacity until the dream
was fully embraced, and never losing sight of the
reality that God made it all possible.

We love you.

Marnie Baker

Perseverance pays!
We know you will shine in all your
future endeavors.

Love,
Mom, Dad, Craig
and all the farm animals

Lynda Jo Zaslou

Hitch your wagon to a star
Work hard...become who you are
The sky's the limit when you strive
A joyful way to feel alive
In the wings your family's cheering
Cause your goals you are a' nearing.

Wishing you sunny days and starry nights
With much love, joy & pride,
Mom & Dad

*To the Tulane School of Medicine
Class of 2000*

2000 is a special year, indeed!

Congratulations on all your achievements!

*It's been a long, tough, exhausting, exciting, fun, curious,
interesting, and then some...four years.*

*Wherever you may go, remember what it took to get here
and know that you have what it takes to make your dreams
come true.*

Best wishes on your journeys into the future.

- The 2000 T-Wave Staff

Summit Technology, Inc. is committed to providing the most current techniques in surgery and practice management tools to the ophthalmic community.

Come to the Coast for a Brilliant Future.

Get in on the ground floor of our new Medical Center.

In spring 2000, we will open the doors to our new 130-bed hospital located in the center of one of the fastest-growing areas of the Gulf Coast.

Come visit us today and hear more about our exciting plans. A trip to the coast might be just what you need to get your start on a shining future.

For more information, call 228-865-1111.

Image IS Everything.

Nowhere is this more critical than in diagnostic medical imaging. Inside MR, ultrasound, and digital X-ray imaging systems, Mercury high-performance multicomputers enable fast data capture, processing, and image reconstruction to support accurate, efficient patient diagnoses.

Whether it is a three-dimensional CT scan of a lung, MRI output of a heart between beats, or an ultrasound picture of a new life, Mercury's technology is behind the power of the image.

Heart problems don't keep office hours.

Before entrusting your heart care to someone who just keeps office hours here one or two days a week, this about what would happen if you needed that doctor some other time.

Heart attacks and lesser heart problems can occur at any hour, day or night, and time can be a major factor in treatment.

The Cardiovascular Institute of the South is a nationally renowned group of cardiologists and heart surgeons who practice and live in the Terrebonne/Lafourche/St. Mary area.

If you have symptoms that even suggest a heart problem, you will be seen immediately, 24 hours a day, 365 days a year. If you or your doctors are concerned about less urgent symptoms, you will be promptly examined, even if we have to extend office hours to do it.

Cardiologists from all over the world come to CIS to learn about the latest ways to diagnose and treat heart problems and patients travel hundreds of miles to be treated here. There is no better place to go for your care.

“What a long, strange trip
it’s been.”

Dear Class of 2000,

Well, the time has come to say good-bye. We have been an extraordinary class in the history of Tulane and we leave big shoes to be filled by the succeeding classes. I just want to take a moment and tell each and every one of you how proud I am to have been a part of this class. You should each be proud, as well. We worked hard and learned hard, but never forgot how to have fun and enjoy life and each other. You have all probably heard me complaining about this book over the past year, but I have to admit that I am glad I did it. It is easy to get all wrapped up in life and not take time to get to know the people around you. I regret not making closer connections throughout the past 4 years. Putting together this book gave me the chance to get to know everyone a little bit better. Wherever life takes you, I want you all to know that whenever you come back to New Orleans for a visit, you will always have a place to stay in my home.

Sincerely,
Claire Cali Neumann

Thinking he has pioneered a westward route to the spice-rich East Indies, Christopher Columbus lands in the Bahamas. At the time of first European contact, about 90 million Native Americans live in North and South America.

Stagecoaches offer public passenger service, and covering 15 miles a day is considered a good speed. The coaches travel in stages, changing horses at each stop. As a result, the stagecoach line is born.

Everett Collection

Pilgrimages to religious sites are seen as acts of faith. Roads and towns develop along the pilgrim routes, expanding trade and communication in Europe. Beginning in 1096, Crusades to the distant Holy Land expose Europeans to Arab culture.

Corbis-Bettmann

- 1000 Leif Ericson reaches North America.
- 1094 Gondolas first appear in Venice.
- 1119 Chinese invent magnetic compass.
- 1178 London Bridge is built.
- 1271 Marco Polo travels to China.
- 1441 Portuguese explorers start slave trade.
- 1589 Mercator creates his world map.
- 1620 Mayflower lands at Plymouth Rock.
- 1750 First Conestoga wagons are built.
- 1776 Practical internal-combustion engine appears.
- 1804 Lewis and Clark explore American West.
- 1800 Public rides first escalator.
- 1839 Vulcanized rubber is invented.
- 1869 Transcontinental railroad spans U.S.

Pirates terrorize the seas between 1690 and 1730. One of the most notorious pirates is Edward Teach, known as "Blackbeard." The fictional Captain Hook first appears in the 1904 play "Peter Pan" which inspires books, musicals and films throughout the century.

During the Revolutionary War, a submarine is used in battle for the first time. Built by American David Bushnell, the one-person vessel is powered by a hand-cranked propeller. Twentieth-century submarines are complex, nuclear-powered craft used for defense and scientific purposes.

Granger Collection

Birchbark canoes provide transportation for many Native Americans. The canoes are made with a light wood frame covered with pieces of bark sewn together and made watertight with melted pitch.

The first practical wheelchairs provide new mobility for those unable to walk. Early models of wheelchairs have three wheels and hand cranks to propel the chair forward.

1780

1863 Subways provide a new way to get around in ever-more-crowded cities. The world's first underground railway opens in London in 1863. By 1904, New York City inaugurates its first rapid-transit subways.

1908 Henry Ford's moving assembly line makes cars affordable to the masses. Ford produces the first Model T in 1908. In 1964, the sporty Ford Mustang rolls out at \$2,368 and sets an all-time record for first-year sales of a new model.

- 1913** First drive-in gas station opens.
- 1927** Lindbergh flies solo, nonstop over Atlantic.
- 1937** Hindenberg zeppelin crashes.
- 1961** Humans first orbit Earth.
- 1976** Supersonic passenger flight begins.
- 1983** Pioneer 10 spacecraft leaves solar system.
- 1987** Pathfinder and Sojourner explore Mars.
- 2000**

- 1914** Cleveland, Ohio, pioneers traffic lights.
- 1935** Parking meters appear.
- 1952** Jet airplane passenger service begins.
- 1975** McDonald's starts drive-through service.
- 1981** NASA develops space shuttle.
- 1984** "Chunnel" links U.K. to France.
- 1999** Piloted balloon circles globe nonstop.

1912 On her maiden voyage, the great steam passenger ship *Titanic*, thought to be unsinkable, goes down after hitting an iceberg in the North Atlantic. Of the more than 2,200 persons aboard the ship, about 1,500 perish.

AP/Wide World Photos

1956 Freeways change the nature and pace of travel in America. In 1956, President Eisenhower authorizes construction of the Interstate Highway System. By the 1990s, this nationwide network includes more than 42,500 miles of highways.

Food

Bruce Forster/Tony Stone

1520

Chocolate from the New World takes Europe by storm. Brought to Spain from Mexico, chocolate is so costly that Europeans water it down for use as a drink. Natives of Mexico have prized chocolate since ancient times.

1762

John Montagu, 4th Earl of Sandwich, instructs his servants to bring him his meat between two pieces of bread. This way he can eat with one hand while continuing to play cards with the other. The term "sandwich" is born.

PhotoQuest

1000

As the millennium begins, European peasant food is plain and often scarce. Feasting on meat is reserved for the wealthy. Table utensils include only a knife; most people just eat with their hands. Slabs of dense bread, called trenchers, serve as plates.

1650

Europe's first coffeehouse opens in England. By 1700, there are 2,000 coffeehouses in London alone. Early coffeehouses are important places to transact business. Lloyd's Coffeehouse evolves into Lloyd's of London, the giant insurance brokerage.

1377 Europeans use engraved wooden blocks to print playing cards, one of the first uses of printing in Europe. Playing cards come to Europe from the Middle East during the Crusades.

1898 Soccer is first played in America, using a sheep's bladder as a ball. As the millennium closes, millions of American youth play in organized soccer leagues. In 1999, the U.S. women's soccer team wins the World Cup.

© 2000 PhotoDisc, Inc.

1552 Golf is a popular sport in Scotland. In 1552, Saint Andrews is a favorite place for golfing. Mary, Queen of Scots is reportedly the first woman golfer and helps spread golf's popularity in Europe.

Mary Evans Picture Library

1100 Archery competition is a common pastime in the Middle Ages. Archery skill is so important that English kings ban football because it takes men away from archery practice.

1846 Baseball is first played as an organized sport at Hoboken, N.J., when the New York Club defeats the Knickerbocker Baseball Club on June 19. More than 100 years later, Jackie Robinson breaks the color barrier in major league baseball in 1947.

Corbis-Bettmann/UPI

1892 Parker Brothers introduces Monopoly, which becomes one of the world's most successful board games. By the late 1990s, the popular game is available on interactive CD.

Tony Esparza/CBS Entertainment Communications

1959 Game shows become widely popular TV fare in the 1950s. One of the top 10 shows of 1959, NBC's "The Price Is Right," still draws large audiences in 1999 on CBS, where it is the longest-running game show in television history.

Reuters/Kimmasas Magma/Archive Photos

1896 Athens, Greece, hosts the first modern Olympics. Winter Games are not held until 1924. At the 1998 Winter Olympics, American figure skaters Tara Lipinski and Michelle Kwan win the gold and silver medals respectively, and China's Lu Chen wins the bronze.

2000

Reuters/Corbis-Bettmann

1999 Michael Jordan, considered by many to be basketball's greatest player, retires from the NBA. His talents lead the Chicago Bulls to six NBA championships in the 1990s.

Communication

1000 Literacy is reserved for the clergy and a few students. Monks and scribes laboriously copy books by hand using goose-quill pens. Books are such rare treasures that in some libraries they are chained to the shelf.

© 2000 PhotoDisc, Inc.

1300 Sign language is a means of communication for some early cultures. It bridges language differences between societies and eventually evolves into a formal alphabet for communication by the hearing impaired.

1455 Johann Gutenberg invents a way to mass-produce the written word. He devises the first Western movable-type system and a new kind of printing press. Gutenberg's inventions speed the spread of knowledge and literacy.

Doris Bahner/Cinet Pictures

1584 William Shakespeare's "Romeo and Juliet" is first performed. London's Globe Theater opens in 1599, where many of his plays are staged. By 1600, the great playwright pens at least 20 plays.

Photofest

1809 The first regularly printed newspaper is a four-page weekly publication, the *Relation*, printed in Germany. It is 1702 before the first daily newspaper appears, *The Daily Courant* of London.

Lambert/Archive Photos

1837 American Christopher Sholes invents the typewriter. To keep rapid typists from jamming the keys, Sholes designs the keyboard so that frequently combined letters are located far apart. This layout lasts into the computer age.

1898 Austria introduces the first postcards. For only pennies, postcards keep people in touch before telephones are common. Calling cards, commercial valentines and other printed personal greetings are popular customs.

1876 Alexander Graham Bell patents the telephone. By the end of the millennium, missing a phone call is almost impossible as answering machines take instant messages. Cell phones, beepers and voice mail expand communication options.

1895 Guglielmo Marconi invents the radio, providing a way for sound to travel long distances without the use of wires. During the 1920s and 1930s, radio is the primary source of news and family entertainment for most Americans.

1879 Inventor Thomas Edison patents a practical electric light bulb. Electric lights have a profound effect on society, increasing opportunities for reading, writing, socializing and working.

1930 Movie making experiences a "golden age" in the late 1930s and early 1940s. In 1939, *Gone With the Wind* and *The Wizard of Oz* premiere. *Citizen Kane* follows in 1941, and *Casablanca* in 1942. Studio giants are MGM, Paramount, RKO and Warner Brothers.

1956 Elvis Presley's unique blend of blues, country, rock and gospel draws adoring fans and makes him "the King" of rock and roll. In 1956, his debut album becomes the first in history to sell a million copies.

1971 Personal computers become available to the mass market, thus paving the way for desktop publishing. By 1990, laptop notebook computers allow people to compute from almost anywhere.

1945 Television is invented in 1926, and regular network TV broadcasts begin after World War II. One of TV's most popular shows is CBS's "I Love Lucy," premiering in 1951. Television transforms almost every aspect of life in the twentieth century.

2000

1997 Millions of people worldwide cruise the Information Highway via the Internet, and instantaneous e-mail communication becomes common. As the millennium ends, computer, TV, video and telephone technologies begin to converge.

Fashion

Jon Gardey/ABC/Everett Collection

1100 Medieval knights wear a short wool tunic and a coat of chain mail. Gauntlets (heavy leather gloves) and sword complete the attire, which is so costly only wealthy men can afford to be knights.

Disney/Shouling Star

1278 Crusaders return from the Middle East with new ideas, including that of the glass mirror. In 1278, the glass mirror is produced in Venice, Italy, and Europeans see themselves clearly for the first time.

Archie Photos

1300 Medieval men's shoes have long, pointed toes. Individuals of higher social status are allowed to have longer points on their shoes, some as long as 18 inches. Moss stuffed into the toe maintains its shape.

1558

Queen Elizabeth is the fashion trendsetter, popularizing the wide skirt, jeweled wig, high bald forehead, and decorative ruff around the neck. She is rumored to have 3,000 dresses.

PhotoFest

1000 Europeans wear simple tunics and leggings.

1206 Spectacles originate in Italy.

1488 Toothbrush is invented.

1820 High heels are popular for men and women.

1920 "Flappers" wear bobbed hair, short dresses.

1942 W.W. II prompts shoe rationing.

1973 Afro hairdo is popular.

2000

1230 Buttons appear as decoration, not fasteners.

1449 Men and women wear earrings.

1550 Cosmetics and perfume come into fashion.

1850 Corsets and bustles are essential attire.

1939 Nylon stockings first appear.

1958 Hair gets long, skirts get short.

1990 "Retro" fashions mimic earlier decades.

1870 Men and women wear elaborate powdered wigs made of human hair, horsehair and goat hair. Because the large wigs are heavy and hot, some people shave their heads and wear a cloth cap under the wig to absorb perspiration.
